Javascript, Typescript, React, Next

May 2024 - Dec 2024

Experience

Frontend Developer,

- I have over 4 months of experience.
- Although I don't have much experience, I am very hardworking and strive to learn as much as possible.
- I have a good memory, and I can recall what I've learned even after a long time.
- I am highly self-confident and plan to conduct more experiments and practice soon.
- Currently, I work full-time at the AIM Lab community.
- I have excellent networking skills, can work effectively in a team, and possess well-developed management skills.

Projects

Some of these projects are not all :

- <https://expert-finall.vercel.app/> : Property Valuation System: A modern web platform for evaluating real estate and vehicles. In this project, I have used React.js, JavaScript, TailwindCSS, and Ant Design

Awards & Honors

- have graduated from the frontend React.js course at the Najot Training Center.

Activities

- We are currently working on the property valuation system called E-expert. It is a modern web platform for evaluating real estate and vehicles. Now, we aim to create even more complex and advanced platforms.

Skills & Interests

- I am very flexible, I can perform complex tasks and correct mistakes.
- and I'm very, very interested in artificial intelligence, I work with artificial intelligence as much as I can, as much as I can
- In addition to programming, I work as a video editor, SMM manager, and I have channels on Telegram. I have 4 years of experience as an admin on Telegram. In addition, I am very interested in artificial intelligence, so I make videos on Instagram, TikTok, and YouTube. I am a blogger.
